

In order to ensure that Investment Advisor Program (IAP) assets are invested in a prudent manner, Raymond James Charitable and Raymond James Trust (as the service provider for Raymond James Charitable) have set forth the following investment guidelines:

- Donor advised funds (DAFs) must be appropriately diversified based on articulated investment strategy at all times (e.g., across securities, issuers, sectors and countries).
- Approved investments:
 - Cash, individual bonds, individual stocks, mutual funds and ETFs.
 - In addition to the approved investments listed above, financial advisors may also choose to recommend SMAs, UMAs and third-party manager(s) through Asset Management Services (AMS) or Raymond James Consulting Services (RJCS). Please note that if a third-party manager is utilized, additional manager fees apply.
- Raymond James Charitable reserves the right to determine whether an account should be further diversified. All accounts are subject to the asset class restrictions given below.
- The investment allocation target will be determined on the IAP Agreement (Form 2784) and verified during the initial welcome call and annual review.
- At least 1.0% of the DAF balance should be maintained in the Liquidity Reserve (held in money market) for fees and near-term grants, apart from the invested funds. The Liquidity Reserve is monitored on a monthly basis. If the value falls below 1.0%, available cash from the invested funds will automatically be transferred to replenish the reserve. If there is not available cash in the invested funds, RJ Charitable will contact the financial advisor to provide input to replenish the reserve.

¹We do not track individual positions. However, if the nominated financial advisor tracks them, it is likely that the individual positions can remain in the account.

²We consider such positions a concentration. Under most circumstances, we will require changes be made in order to comply with policy limits.

³Exceptions can be made based on the market value of the account and/or based on the type of fund.

In the event that an account is not in compliance with any of these guidelines, the financial advisor will be contacted to discuss and share ideas on how to address the issue(s).

The Raymond James Charitable Board of Trustees reserves the right to reallocate investments as it deems appropriate and require the nominated financial advisor be removed from the account at its sole discretion.

DAFs participating in the IAP program are expected to maintain a balance of \$500,000 or more. Accounts with market values of less than the minimum are subject to being moved out of IAP to one of the Liberty models.

In the event the nominated financial advisor is 1) a donor to the account, 2) serving as an active donor advisor to the account, or 3) is a family member (family is defined as spouse, ancestor, child, grandchild, great grandchild; spouses of a child, grandchild, great grandchild; brothers and sisters (of whole or half-blood) and brothers' and sisters' spouses) of the donor or donor advisor, a financial advisor fee will not be charged to the donor advised fund.
